Table 1: Vehicle characteristics by origin

Vehicle characteristics by origin				
	Domestic		Foreign	
	Mean (SD)	N	Mean (SD)	N
Price	6072.4 (3097.1)	52	6384.7 (2621.9)	22
Mileage (mpg)	19.83 (4.74)	52	24.77 (6.61)	22
Repair record 1978	3.02 (0.838)	48	4.29 (0.717)	21
Headroom (in.)	3.15 (0.916)	52	2.61 (0.486)	22
Trunk space (cu. ft.)	14.75 (4.31)	52	11.41 (3.22)	22
Weight (lbs.)	3317.1 (695.4)	52	2315.9 (433.0)	22
Length (in.)	196.1 (20.05)	52	168.5 (13.68)	22
Turn circle (ft.)	41.44 (3.97)	52	35.41 (1.50)	22
Displacement (cu. in.)	233.7 (85.26)	52	111.2 (24.88)	22
Gear ratio	2.81 (0.336)	52	3.51 (0.297)	22

Notes: Stata's 1978 automobile data. Price is in dollars and mileage in miles per gallon. Arithmetic means with sample SDs in parentheses and variable-specific N; no weights or inferential comparisons. Domestic means foreign=0; foreign means foreign=1. Missing observations are excluded separately for each variable and group. Repair record is the stored ordinal 1978 rating; its mean and SD describe the numeric coding. Labels retain the dataset's units: headroom in inches, trunk volume in cubic feet, weight in pounds, length in inches, turning circle in feet, displacement in cubic inches, and gear ratio as a ratio.
